- ✓ Increased productivity - It's mobile
- ✓ No capital outlay - saves you money
- ✓ No difficult OHS management issues
- ✓ Safe on neoprene and rubber components
- ✓ No health concerns - improved employee morale
- ✓ No liabilities from employees' exposure to solvents

ECOSAFE WASHER

**SOLVENT FREE  
PARTS CLEANER**

It's safer, cleans better, saves you money and it's mobile!

## WHAT IS THE ECOSAFE WASHER

The EcoSafe Washer is a water based (non solvent) parts cleaner that employs a process known as Bioremediation, engaging microbes to break down grease and dirt on parts into non-toxic substances such as water and trace of carbon dioxide.

The microbes are freeze dried into the Ozzy filter mats and when the warm Ozzy Juice passes through the filter the microbes come alive to start eating the grease and dirt suspended in the Ozzy Juice. Over time the microbe colonies, so long as they are kept warm, continue to expand, and as filter mats are changed more microbes are introduced. This ensures that the effectiveness of the cleaning solution never drops away.

## BENEFITS

The benefits of this part washer as compared to its solvent based equivalents are highlighted above. In summary, these include OH&S improvements, safety for users, environmental benefits and cost savings / productivity improvements due to the mobility, flexibility and versatility of the unit. It cleans as well or better than solvent based part washer without involving harmful chemicals.

EcoSafe Washer can be utilized in any workshop environment where any type of part, machinery or brakes components are cleaned, repaired and maintained.

## COMMON WARNINGS FOUND ON SOLVENTS:

**Skin:**  
May cause drying, cracking, burning, dermatitis.

**Breathing:**  
Concentrations of vapour may cause headaches, dizziness. Massive acute exposure may result in coma.

**Swallowing:**  
Irritation, vomiting, myocardial injury, arrhythmias.  
**Eyes:**  
chronic exposure may result in conjunctivitis.

**Great consistent cleaner year round.**

## ALSCO MANAGED RENTAL SERVICE

The AlSCO Rental Package ensures the *EcoSafe Washer* is working 100% all the time, avoiding disruption to your busy work schedule.

AlSCO Technician will look after replenishment of consumables and maintenance of the EcoSafe Washer.

The following services will be performed by AlSCO Technician weekly :-

- ✓ Topping up Ozzy Juice due to splash off and evaporation, up to 8 litres per month.
- ✓ Removing filter layers (every week) and replacing the filter pack (every 4 weeks).
- ✓ Checking fluid temperature.
- ✓ Checking pump operation.
- ✓ Wiping down the unit.
- ✓ Replacing brush as and when required.

In the unlikely circumstances that a unit malfunctions, there are diagnostic LED lights so that the problem can be easily identified (e.g. element, pump or low fluid). In such event, you can phone our service Helpline and we will respond within 24-hour to service the unit.

---

## OTHER OPTIONS AVAILABLE :-

### 1) DIRECT PURCHASE

Purchase the *EcoSafe Washer* at full price without the service package.

You have to service and maintain the unit yourself, and purchase parts and consumables from AlSCO as and when required.

### 2) PURCHASE PLUS

Purchase the *EcoSafe Washer* and the service package for 36 months at attractive discounted price.

---

## ADDITIONAL REQUIREMENT FOR CONSUMABLES AND PARTS

There is time when customer under the AlSCO Managed Rental Service or Purchase Plus would require to purchase consumables and / or replacement parts:

1. When the use of Ozzy Juice exceeds the quota of 8 litres per month.
2. When the change of filter is more than one pack every 4 weeks.
3. When the Ozzy Juice and/or filter pack become contaminated due to inappropriate use.
4. When the unit is left off for more than 24 hours and the filter needs to be replaced.
5. When the unit is damaged, abused, vandalized or lost.
