

A close-up, profile view of a woman with long, dark, wet hair. She is holding a large, vibrant yellow flower with green leaves near her nose, as if smelling it. The background is a soft-focus garden with green foliage and sunlight filtering through, creating a warm, ethereal atmosphere. The overall color palette is dominated by greens and yellows, with the woman's skin and hair providing a darker contrast.

There is a place where nothing is hidden,
In your heart lies a Secret Garden

Taking a leaf from mother nature itself, our products proudly don the intricate designs that exude her timeless beauty.

Crafted with composite of natural minerals and pure resin, our basins provide a flexible canvas for an artwork that is resistant to stains, scratches and impact. With the huge range of possibilities available, you will be getting both quality and variety at the same time.

Nous' luxurious stone basins are highly durable. They are seamless, consistent in material and colour, easily renewable and repaired.

Nous solid surface products are non-porous, and anti-microbial as well :

The perfect wash basin or bathtub for all uses.

In line with Nous' vision of creating sustainable processes friendly to the natural environment. These basins are made using effective techniques which use less energy, consumes less raw materials and creates less waste and pollution, as opposed to the regular ceramic basins.

We are the green choice of the future.

Scrap materials are recycled and reused as raw materials. These processes are constantly improved to reduce waste to minimal.
