

## An Enriching LEGO® Experience

Age 7 - 12

### Key learning values

- Spring start children's love for writing and storytelling.
- Progress from concrete manipulative 3D characters and setting to imaginative 3D writing.
- Learn vivid description of the characters and setting to make their stories come alive.
- Add new words and vocabulary to children's word bank.

Children already have creative minds. This program further enhances their creativity through a hands-on learning experience with LEGO® bricks and figurines. They also learn important skills to express new ideas and to make their story characters come alive.

# MY 1st 3D™

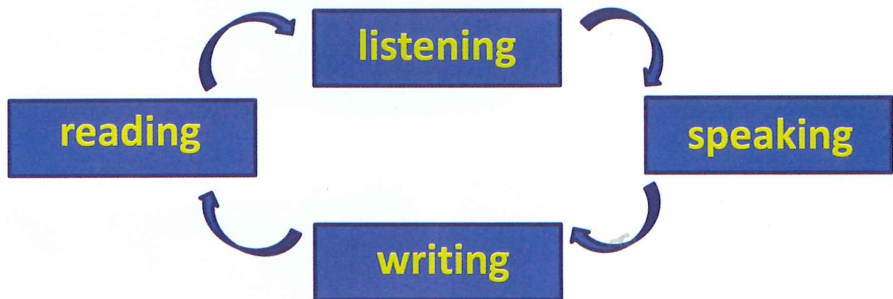

WORK PLAYFULLY.

An Enriching LEGO® Experience

## 3D Creative Writing

**Multi-sensorial** - uses the senses of touch, hearing and sight when children build their models.

**Multi-faceted** - encompasses the 4 components essential for language learning (writing, speaking, reading and listening).
