

An Enriching LEGO® Experience

Multi-sensorial - uses the senses of touch, hearing and sight when children build their models.

Multi-faceted - encompasses the 4 components essential for problem solving.

An Enriching LEGO® Experience

Age 9 and up

Key learning values

- Learn more complex control systems.
- Brainstorm to find creative alternative solutions.
- Experiment using variables.
- Record observations like time and distance.
- Use mathematical skills like adding, subtracting, multiplying, dividing and estimating.
- Use feedback to adjust a programming system output.

Build a robot. Give it a name. Program the robot to solve problems in many different scenarios. Design and build the unique robot that you call your own.
