

Look and Feel Years Younger.

Oi-Lin® Youth Emulsion

Inspired by DNA research, this breakthrough anti-aging cream dramatically reduces the visible signs of aging. Plant-based and fragrance-free, it absorbs immediately, leaving a non-oily finish. Daily use helps to continuously repair the appearance of environmental damage and improve the skin's natural ability to renew itself.

Cutting-edge ingredients include:

- Stem cells derived from a rare Swiss apple and French grape to promote radiant-looking skin
- Resveratrol, which has exceptional antioxidant and anti-irritation properties
- Several peptides that combat photo-aging and skin damage while softening and smoothing the appearance of wrinkles
- Intense moisturizers hyaluronic acid and olive oil-derived squalane
